Professional Summary

Motivated and passionate Web Developer currently pursuing a BS in Software Engineering (6th semester). I have strong hands-on experience in both frontend and backend development using HTML, CSS, JavaScript, PHP, WordPress, and Elementor. My focus is on delivering responsive, user-friendly web solutions. I've built dynamic admin panels and portfolio websites and completed internships that strengthened my backend development and real-world project management skills. I'm currently contributing to the backend development of an admin panel for Aseer Travels & Tours.

Technical Skills

Frontend: HTML5, CSS3, JavaScript, Bootstrap

Backend: PHP, MySQL

CMS: WordPress, Elementor

Tools: VS Code, Git, XAMPP/WAMP

Database: MySQL

Other: Responsive Design, Web Hosting, cPanel

Education

BS Software Engineering

6th Semester (2021 – Present)

University of Engineering and Technology (UET), Lahore

Professional Experience

Backend Developer – Aseer Travels & Tours

Remote | Jan 2025 – Present

- Designing and developing a PHP-based admin panel to manage tours and customer bookings.
- Implementing secure login systems, booking modules, and data visualization for reports.
- Ensuring mobile responsiveness and intuitive UX for admin interfaces.

Intern – Backend Developer (PHP)

Punjab Information Technology Board (PITB), Arfa Kareem Tower | Summer 2024

- Built dynamic web modules using PHP and MySQL.
- Contributed to real-time form validations and CRUD operations.
- Gained experience working in a fast-paced, professional IT environment.

Freelance Web Developer – Vivere Concepts (Architecture Firm)

Remote | 2023

- Designed and developed the official portfolio website: www.vivereconcepts.com
- Integrated image galleries, team sections, and service details using modern frontend tools.
- Optimized the site for performance and responsiveness.

Projects

LM Eventos Website (Semester Project)

- Built a complete event planning website using Elementor and WordPress.
- Integrated forms, sliders, testimonials, and custom sections.

Travel & Tour Booking System

- Developed a full-featured booking system with PHP backend.
- Includes customer forms, booking validation, and admin control panel.

Certifications & Awards

- Backend Development Internship Certificate – PITB, 2024
- Web Development Internship Certificate – CodSoft, 2023
- Python 3.0 Course Completion Certificate – PITB, 2022
